Post-Field/Dissertation

Charlotte W. NEWCOMBE Doctoral Dissertation Fellowships

20 Dissertation Fellowships (\$25,000 for 12 months of full-time dissertation writing) designed to encourage original and significant study of ethical or religious values in all fields of the humanities and social sciences, and particularly to help Ph.D. candidates in these fields complete their dissertation work in a timely manner. In addition to topics in religious studies or in ethics (philosophical or religious), dissertations appropriate to the Newcombe Fellowship competition might explore the ethical implications of foreign policy, the values influencing political decisions, the moral codes of other cultures, and religious or ethical issues reflected in history or literature. Applicants must expect to complete their dissertations by August of 2019 – ie these awards are for candidates who are at the writing stage with field work or other research already complete. ***You may only apply once.*** Applicants who have held a similar national award for the final year of dissertation writing, such as Ford, Pew, Mellon, ACLS, Spencer, or AAUW are NOT eligible.

Mellon/ACLS Dissertation Completion Fellowships

A significant new fellowship program [65 awards] providing support (\$30,000 + \$3000 for research costs + up to \$5000 towards tuition/fees) for young scholars in the humanities and related social sciences in the last year of dissertation writing. This program (like everything funded by Mellon) aims to encourage timely completion of the PhD – and thus may be **held no later than in the 7th year of the program** (i.e., applications from the cohort of 2012 or later; not sure how one would argue about a year in MAPSS or having started with an external MA. But the fine print also says “In special circumstances an applicant and his or her advisor may petition to have an application for an 8th year fellowship considered. Such applicants must present a compelling case for eligibility.”). Expectation is that fellows will complete their dissertations by August 31, 2016 at the latest. Application requires, among other materials, one completed chapter and a timeline for the expected completion of dissertation writing and defense. ***Application is Online.***

Jacobs Research Funds, Whatcom Museum Society

Grants to individuals of up to \$3000 supporting linguistic and anthropological research on the indigenous peoples of North and South America -- with a preference for the Pacific Northwest. Projects that

produce new data are the highest priority, including proposals to digitize, transcribe and translate old materials that might otherwise become lost or inaccessible. Most funded projects fall within linguistics (including ethnolinguistics, sociolinguistics and world view) or anthropology (including social-cultural anthropology, social organization, political organization, and folk taxonomy). Projects in religion, mythology, music, dance, and other areas are also eligible. (Awards of \$6000 to 2 or more collaborators, or of \$9000 to individual researchers requiring an intense period of fieldwork are occasionally made.) No citizenship restrictions, open to students at all levels of a degree program so long as the project is relevant. (Pre-MA applicants must have a faculty sponsor.) Application is online.
